

Angles

Word	Picture	Definition
ray		a part of a line that has one endpoint and continues endlessly in a one direction
angle		a figure formed by two rays that have the same endpoint
vertex (of an angle)		the point where two rays meet to form an angle
right angle		an angle that forms a square corner 90°
acute angle		an angle that is open less than a right angle
obtuse angle		an angle that is open more than a right angle
perpendicular		two lines, line segments, or rays that intersect to form right angles
